

INTER-AMERICAN INSTITUTE OF HUMAN RIGHTS USAID COOPERATIVE AGREEMENT EDG-A-00-02-00030-00

SUPPORT FOR VICTIMS OF TORTURE (AMENDMENT)

WORK PLAN 1 JANUARY - 30 DECEMBER 2006

INTRODUCTION

The annual goals set for this annual work plan are:

- To promote psychological support actions and the coordination of psychological contributions with the legal strategy of cases involving victims of torture brought before the Inter-American System
- To implement institution building actions and promote national networks for providing comprehensive support to torture victims
- To implement actions to sensitize society in general and civil society and state sectors involved with torture victims, in order to prevent a repetition of acts of torture and raise awareness of the plight of survivors

The aim is to give continuity to, and broaden, the sphere of activity of the project initiated in 2002 entitled "Psychological support for victims of torture in the Inter-American System." As well as disseminating the outputs developed previously, in this new phase, the project will be undertaking innovative actions in 10 countries of the hemisphere. The countries selected have a record of systematic human rights violations regarding which complaints have been filed at the international level. CSOs have also sprung up spontaneously to defend to defend human rights.

During 2006, six regional training workshops will be held to strengthen NGOs, plus a subregional activity to provide technical assistance and promote close ties among intersectoral national networks for the prevention of torture.

A variety of other activities will be implemented to disseminate information and sensitize civil society, including a video documentary and a campaign to collect testimonies, to raise society's awareness of the effects of torture and the need to support the victims and prevent such acts from being perpetrated in the future.

With regard to the campaign to gather testimonies from torture victims, in the project proposal approved by USAID it was stated that the testimonies collected would be submitted to a selection committee, which would choose three from each country for inclusion in a printed publication. However, after consulting professionals involved in this issue it was decided that, due to the sensitive nature of the material, it would be best to present all the testimonies in a

documentary film instead of choosing just a few. Consequently, no selection committee will be needed, nor will a publication be produced. These changes are reflected in the attached budget.

As part of the actions in support of torture victims, a support group of psychology professionals will be set up and trained in Costa Rica to work with the victims who take part in the hearings of the Inter-American Court.

INTER-AMERICAN INSTITUTE OF HUMAN RIGHTS

AMENDMENT TO USAID COOPERATIVE AGREEMENT EDG-A-00-02-00030-00 PROJECT: SUPPORT FOR VICTIMS OF TORTURE

WORK PLAN FOR 1 JANUARY - 31 DECEMBER 2006

FINAL GOAL: To promote a comprehensive process of psychosocial support for torture victims through prevention, efforts to raise awareness and sensitize the public, and the promotion of timely and effective support for victims.

PERFORMANCE INDICATOR: CSOs and public institutions are better equipped and more knowledgeable about how to meet the needs of the torture victims and prevent acts of torture in the future.

Annual Goal 1: To promote psychological support actions and the coordination of psychological contributions with the legal strategy of cases involving victims of torture brought before the Inter-American System.

Annual Goal 3: To sensitize society in general, and civil society and state sectors involved with torture victims, to prevent a repetition of acts of torture and raise awareness of the plight of survivors

ACTIVITY	METHOD	DESCRIPTION	RATIONALE	INSTITUTION(S) RESPONSIBLE / COORDINATION	INTERMEDIATE STEPS	EXPECTED RESULTS	IMPACT INDICATORS
Strategies for sensitizing civil society Objective: To raise the awareness of society in general of the problem of torture and its consequences for the victims and their social surroundings	A campaign will be organized to gather testimonies form torture victims and their relatives through the IIHR's networks, to share their experiences, highlighting the strategies used in their struggle to combat impunity and integrate into society as individuals with legal rights. The material collected will be published on CD and disseminated widely. The results of this campaign will be disseminated in the media in the region, through the	The campaign to collect testimonies will be launched on 26 June 2006, International Day for Victims of Torture, and the results will be presented on 10 December 2006, International Human Rights Day. The 10 countries in which the project will be working will form part of the campaign and the counterpart organizations will be responsible for disseminating the campaign in their respective country. All the testimonies will be posted on the Web page and used to produce	Society and institutions need to be made more aware of the results of acts of torture, and the importance of preventing such acts. Producing a first-rate, imaginative film with solid content can help achieve this objective. Organizing cinema-forum festivals in the countries can help raise awareness of this issue. Collecting and publishing testimonies is a way of focusing	COORDINATION The counterpart organizations in each of the 10 countries selected will organize the cinema-forums, with financial support from the IIHR for the logistical aspects involved. They will also be in charge of disseminating it and will send the IIHR the program and a brief report on the activity.
